

Technical Rider & Stage Plan (english)

Dear Promoter,
dear Tech Crew,

general info

The Huggee Swing Band is a band of 7 musicians. Here you will find the description of our technical requirements and our stage plan for a show of us. If you have any questions or problems concerning our setup, please don't hesitate contacting us in advance. We are always interested in finding the best solution for all involved.

stage

Even we are kind of flexible when it comes to the space we need, there should at least be a stage of 4 x 3 meters for us to be comfortable. The stage must be dry, even, clean and solid.

PA

The PA has to meet requirements concerning the size of our band and the venue. It must be good quality, noiseless and ready for use.

A professional sound engineer responsible for FOH and monitoring must be provided by the promoter.

monitoring

5 monitor wedges with optimum 5 different monitor ways are necessary.

piano

If there is a piano (good & in tune) on site, ready to be used by our piano player, please let us know in advance so we do not need to bring our own. If so, the piano also needs to be amplified.

drums

1 x Bass Drum
1 x Snare Drum
1 x Floor Tom
1 x Tom
1 x HiHat
2 x Cymbals

other

2 x 230 volts (EU) jack for piano

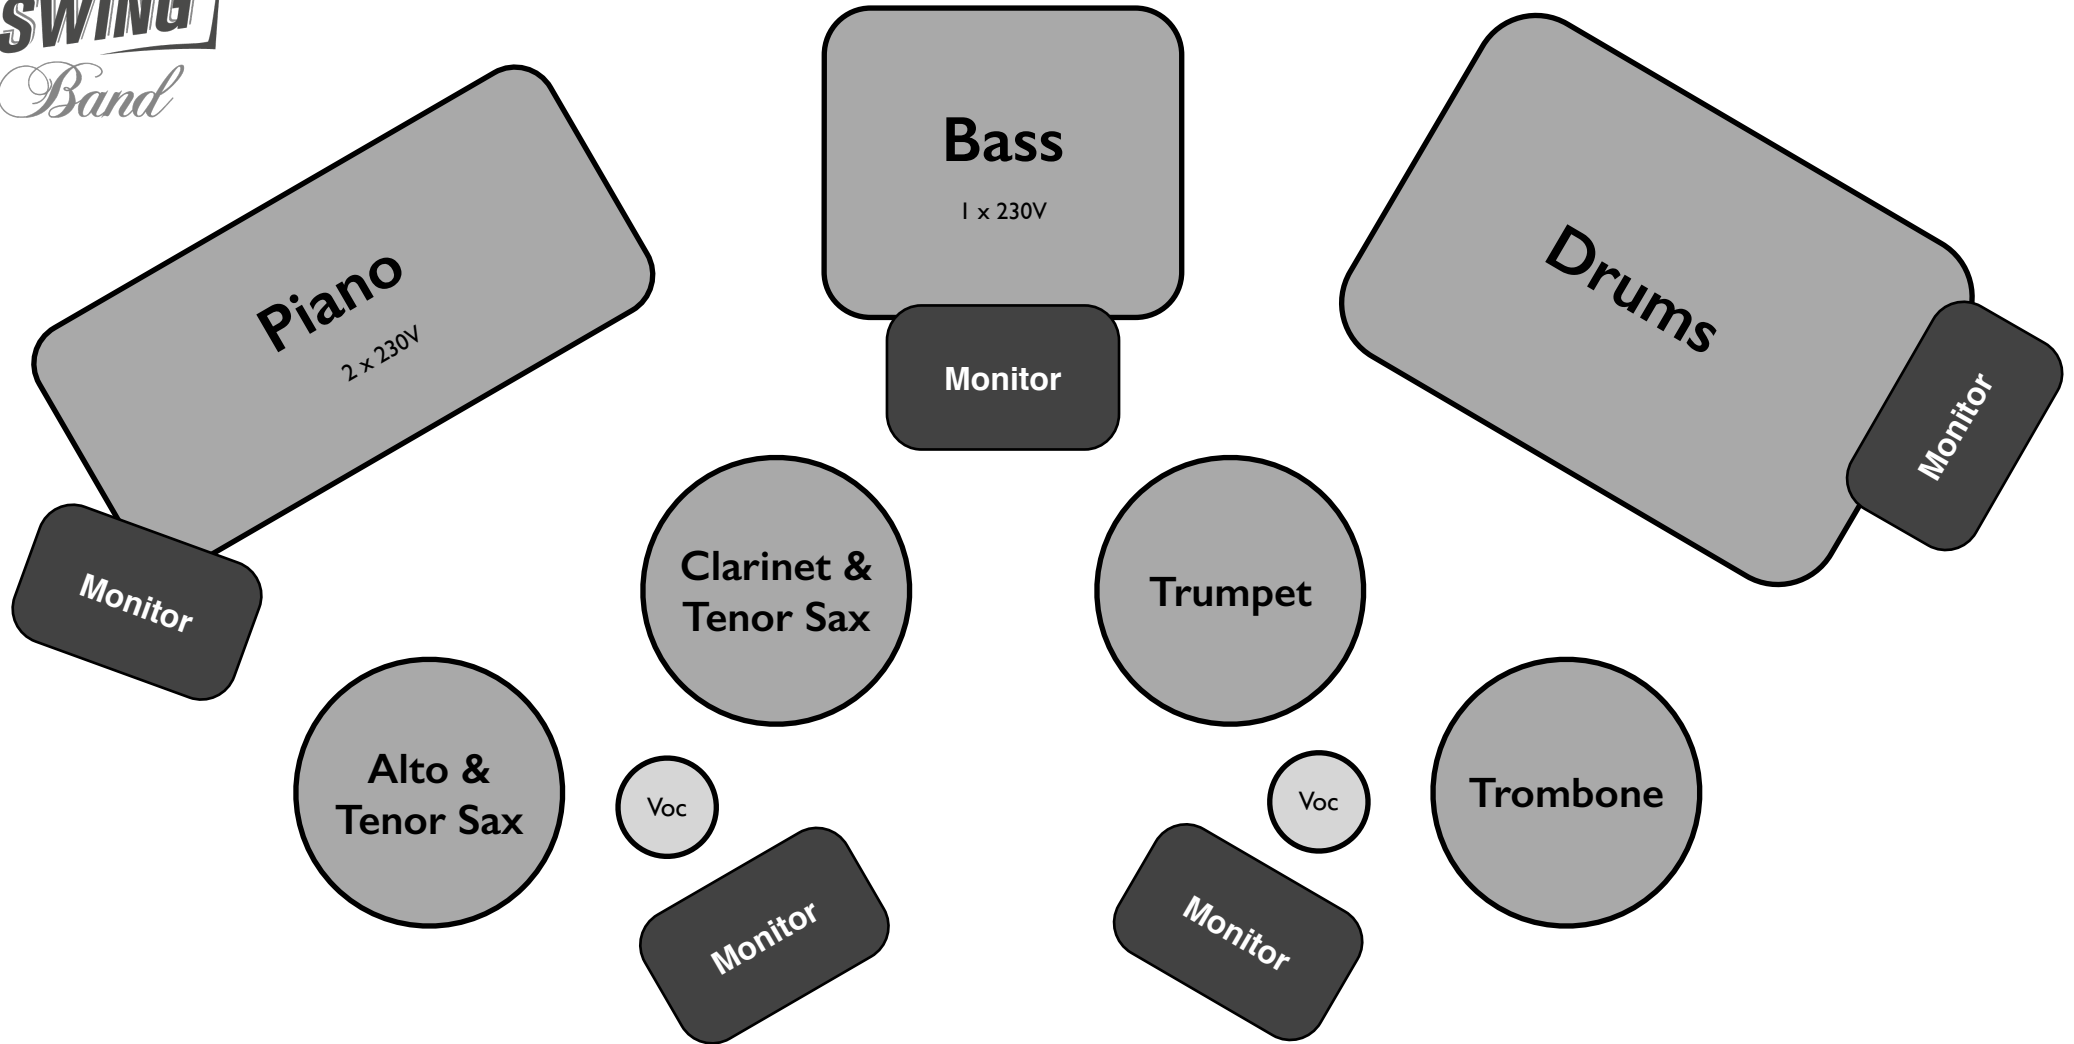

1 x 230 volts (EU) jack for bass (as seen on the stage plan)
